PROFILE

- 2-year experienced full-stack developer passionate about user-friendly web applications.
- Expertise in front-end (React/Angular) and back-end (Node/Django) development.
- Comfortable with various databases (MongoDB, MySQL, PostgreSQL) and cloud platforms (Heroku, AWS, Firebase).
- Proficient in JavaScript and Python for seamless API integration (RESTful, GraphQL).
- Experienced with version control (Git/GitHub), development tools (Redux, jQuery, Bootstrap), and testing frameworks (Jest, Mocha).
- Knowledge of DevOps tools (Docker, Jenkins) for efficient deployment pipelines.

EXPERIENCE

PROFILICS SYSTEMS PVT. LTD.

2022 – present

Full-Stack Developer (2+ years) | UI/UX Focus | Performance Optimization

Ujjain, India

Full-Stack Developer with a Passion for User Experience and Optimization

2+ years of experience building high-performing web applications with a focus on user experience (UI/UX) and performance optimization. Proven track record of:

Boosting user engagement by 25% through UI/UX improvements using frameworks like React and Angular.

Optimizing application performance by 30% with DevOps tools (Docker/Nginx) and database tuning (MySQL/MongoDB).

Delivering secure and high-quality code through extensive code review experience (identified and prevented potential data breaches).

Skilled in both front-end and back-end development using technologies like React, Angular, Node.js, Cake PHP, and various databases.

Adept at DevOps practices for efficient deployment pipelines.

Quick learner with a passion for mastering new technologies.

EDUCATION

### Bachelor's degree in Computer Science

06/2019 – 06/2023

Shri guru sandipani institute of technology and science

Ujjain, India

CGPA: 7.6

SKILLS

Angular   Reacts   Nodejs   Mongodb   HTML5   Css   Bootstrap   Javascript

Php   Core java   Django   Angularjs   Git   python   Typescript   Docker

python   Full stak developement   Devops   AWS   Dotnet   Fastapi

PROJECTS

Realtime chat application
01/2022 – 07/2022

- Built interactive chat app with React frontend and Redux for state management.
- Integrated Firebase for user authentication and secure data storage.
- Implemented Node.js backend with Socket.io for real-time messaging.
- Showcased skills in modern web dev & creating seamless user experiences.

Endorsement Project ⧉
07/2022 – 12/2022

- Led "Social Connect" Project: Fostered impactful online interactions & user engagement.
- Adept Project Management: Ensured successful execution from concept to deployment.
- Full-Stack Development: Contributed with proficiency in front-end & back-end technologies.
- Seamless Social Integration: Enhanced user engagement through social features.
- User-Centric Design: Created an engaging & user-friendly digital environment.

E-Commerce Catalog (Angular & .NET Core)
01/2023 – 09/2023

Developed an interactive e-commerce product catalogue with an Angular frontend, allowing users to browse, search (keyword), and filter (category, price) for products.

- Interactive E-commerce Catalog (Angular): Browse, search (keyword), & filter (category, price).
- Enhanced User Experience: Robust search & filtering for easy product discovery.
- Detailed Product Pages: Rich information, visuals, and a seamless checkout process.
- Payment Gateway Integration (.NET Core): Secure online transactions.
- Full-Stack Skills: Proficient in Angular frontend & .NET Core API development

DEALERSHIP CRM DP360 PROJECT
10/2023 – present

- Significantly contributed to the "Dealership CRM DP360" project, enhancing automotive customer relationship management.
- Utilized Angular and AngularJS for interactive front-end components.
- Collaborated on integrating CakePHP for robust backend services and APIs.
- Configured Nginx for secure web server operations.
- Employed Docker for efficient deployment and scalability.
- Demonstrated a well-rounded skill set and commitment to project optimization.
